About the Deloitte EMEA Fast 500

Innovation and growth across EMEA

The Deloitte EMEA Fast 500 programme is an objective industry ranking that identifies and recognises the fastest-growing technology companies across Europe, the Middle East, and Africa (EMEA).

As start-ups continue to drive the economy, disrupting the way we live and work and creating a powerful potential to solve the big challenges ahead of us, we are delighted to celebrate some of Europe's most pioneering founders and high growth start-ups of the last few years.

Selection and qualifying criteria

This ranking is compiled from applications to the Deloitte Technology Fast 50 programmes across EMEA. Find out more about the [EMEA Fast 50 programmes](#).

Winners are determined based on their revenue growth percentage over a 3-year period*

* To account for high inflation, revenues for entities based in Türkiye were adjusted.

Finnish mobile game company Metacore

Metacore Games, based and founded in Finland, is recognized as one of the fastest-growing mobile gaming companies worldwide. For two consecutive years, the company has secured the top position on Deloitte's Technology Fast 50 list in Finland. We are thrilled to announce that Metacore has also claimed the top spot on this year's Technology Fast 500 EMEA list.

*"We are extremely pleased and proud to win the Technology Fast 500 EMEA listing. Our goal is to entertain hundreds of millions of players for decades, and we are just getting started. While celebrating this milestone, we are also looking ahead. We believe in the power of creative storytelling both in the game and in our marketing, as well as a strong community. Our consistent growth gives us confidence that these strategic choices have been the right ones. However, the most crucial key to our success is undoubtedly our skilled and passionate team and the culture we have created together", says **Mika Tammenkoski**, CEO of Metacore Games.*

Metacore's chart-topping game Merge Mansion is a puzzle game where players complete tasks alongside the character Maddie and her grandmother. The game has over 50 million downloads. Metacore aims to develop and grow Merge Mansion to ensure it keeps entertaining audiences for many years to come.

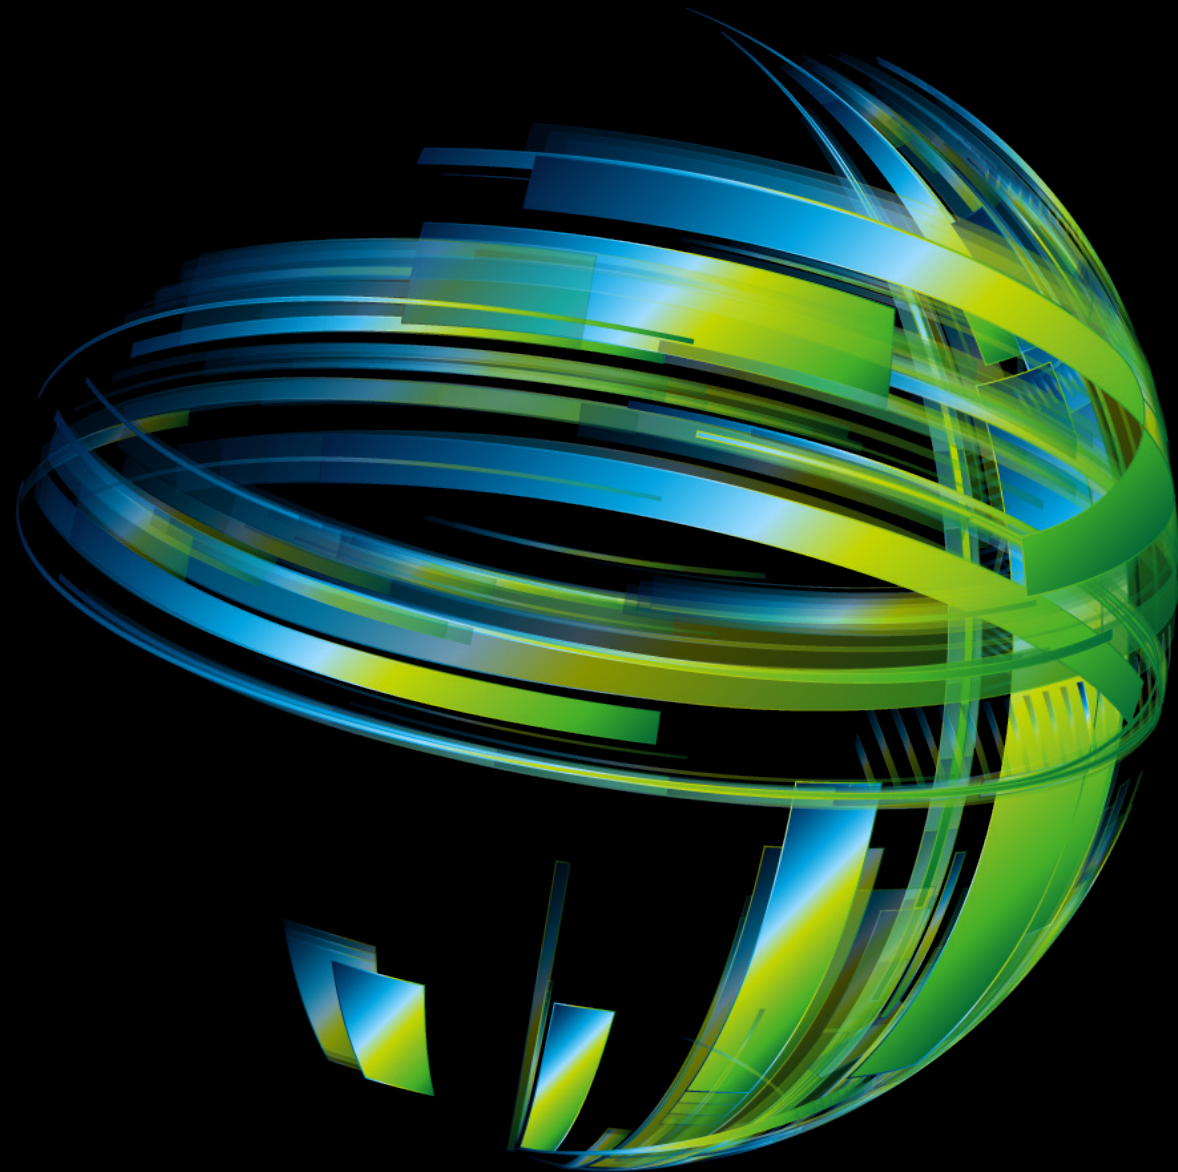

With the Technology Fast 50 and 500 programs, Deloitte highlights successful growth companies in the industry. The technology sector is vital for Finland, and growth companies play a key role in revitalizing the local market and shaping the future. Over the span of three years (2019–2022), Metacore achieved an astounding growth of 89,319%.

*"Metacore Games is an amazing Finnish success story and continues to excel with remarkable growth amid global gaming industry slowdown. Global gaming industry growth stalled and still Metacore showcased strong revenue growth. This success is largely attributed to the sustained popularity of its breakthrough title, 'Merge Mansion'. Metacore stands as a testament to Finland's exceptional capability to not only endure but also thrive in a tough economic climate and reflects the strength and diversity of Finland's expertise and potential for long-term growth in the technology and gaming sector", summarizes **Petteri Tulikoura**, Deloitte's Fast 50 program lead in Finland.*
